

Caring, Educating, Conserving

We offer a variety of different programs:

It Flies, It Creeps, It Crawls: A program using birds, amphibians, and reptile animal ambassadors to teach about the different ecosystems and habitats a species inhabits.

Superheroes!: Superheroes have a lot of special powers, but how many of those special powers are found in the animal kingdom?

Rockstar Reading Rally: Hear an animal themed story read by one of our members and learn about animals from the book.

Animal Adaptations & Defenses: From spikes, scales, armor and more, this program is designed to teach how different species of animals adapt to protect themselves in the wild. Additionally, in this program our Wildlife Rockstars will speak about how we can defend ourselves by preventing head injuries.

Scout Badge Workshops: Girl & Boy Scouts can work toward their badges with one of our wildlife conservation and education workshops. Workshops can be customized to your specific badge requirements.

Meet & Greet: This provides a personal, interactive experience to meet our animal ambassadors, learn about each species and ask questions.

We also offer **Super Senior** programs to assistive living residences, nursing home & rehabilitative centers as well as senior groups.
